

Asmita Avadhut Mhetre

+91-7385618725 | asmitamhetrepict143@gmail.com | LinkedIn: Asmita-Mhetre

EDUCATION

- **Pune Institute of Computer Technology** Pune, India
B.E. in Computer Engineering; CGPA: 8.11 July 2021 – July 2025
- **Shraddha Institute of Career Development (SICD)** Ichalkaranji, India
12th Science: 92/100, MHTCET Percentile: 99.62 July 2019 – June 2021

EXPERIENCE

- **Accelya Solutions India Limited** October 2025 – Present
Software Developer
 - **Error Handling:** Modified and mapped error messages based on different conditions across APIs, including Pricing, Shopping, and Exchange, with C++-based API implementations. Performed code debugging, database validation, and log analysis to identify and resolve error-handling issues
 - **Backend Systems and Production Support:** Working on the FLXONE pricing engine using C++, troubleshooting end-to-end backend issues, performing root-cause analysis and testing, and collaborating with engineering teams to improve system reliability and stability.
- **Yardi Software India Private Limited** July 2025 – October 2025
Software Engineer Trainee
 - **SQL Development:** Developed and optimized **SQL** queries for enterprise applications and client-specific workflows.
 - **Database Analysis:** Used **SSMS** and **SQL Profiler** to analyze backend queries, optimize performance, and troubleshoot data-related issues.

PROJECTS

- **Detecting Oil Spills at Marine Environment using AIS and Satellite Datasets:** Designed a real-time data processing system integrating AIS streaming data, satellite imagery, and deep learning models for oil spill detection. Built backend data pipelines using **Python**, **FastAPI/Flask**, and **MQTT** for continuous ingestion and processing of maritime vessel data. Processed and transformed satellite datasets using **Google Earth Engine** for environmental analysis and anomaly detection. Developed scalable system architecture supporting real-time monitoring and automated model inference using **TensorFlow/Keras**. Technologies Used: **Python**, **FastAPI**, **React.js**, **MQTT**, **TensorFlow/Keras**, **Google Earth Engine**.
- **Huffman Encoder Decoder:** Developed a Huffman encoder and decoder using **C++** and integrated **WebAssembly** with **JavaScript** for efficient execution of compression algorithms in web environments.

SKILLS

- **Programming Languages:** C++, Python, SQL, Java
- **Backend & Frameworks:** FastAPI, Flask, Node.js, Express.js
- **Databases & Data Tools:** MySQL, SQL Server, DBMS, SSMS, JDBC, Apache Spark, Apache Airflow, AWS, Redis
- **Technologies:** React.js, Git, REST APIs, Agentic AI
- **Core Concepts:** OOP, Operating Systems, Data Structures and Algorithms (DSA)

ACHIEVEMENTS

- **Competitive Programming:** Solved **3000+** coding problems across LeetCode, GeeksforGeeks, and HackerRank platforms.
- **LeetCode:** Rating:1761, Top 9.85%
- **GeeksforGeeks:** Rating:1892, Institutional Rank 1
- **CodeChef:** Rating:1686, **3-star** coder
- **Hackerrank:** **5-star** in C++, Python, SQL
- **MHTCET:** Secured **Rank 475** in MHTCET among 2 lakh students.

CERTIFICATIONS

- **Certifications:** SQL by Scaler Academy, Flipkart Grid 5.0 and 6.0, Xiaomi Ode2Code 3.0, TVS Credits E.P.I.C. 5.0
